INTERMEDIATE

Introduction to Intermediate Training

Designed for Specialty Trainees starting Intermediate Training.

Seven days focusing on the essential units:

Neuro, Obstetrics, ICM, Cardio, Pain, Paediatrics & Regional/Anatomy.

Practical clinical aspects to get the most out of your specialist blocks.

Interactive & participant focused.

Lots of simulation, case studies, real life problems.

Provided by experts with experience in, and knowledge of, your particular challenges.

Theoretical knowledge relating to the Final Exam.
