

Guideline for abstract submission

Submission deadline 31st October 2023

Abstract submissions are welcomed for all topics relating to perioperative medicine. This can relate to teaching, QI, audit or research. Prizes available for oral and poster presentations.

Please note:

Submission as a word document of no more than 250 words excluding referencing

For Original Research, comment on ethical approval. For Original Research, Service Evaluation, Quality Improvement and Surveys use the following subheadings: Introduction, Methods, Results, Discussion, References. For Case reports, patient consent must always be given. Without it abstract will not be considered. Use subheadings: Introduction, Case report, Discussion, References. References: two references can be included. You may include either a single table OR a figure but not both.

Submissions will be shortlisted and undergo formal review. Presentations will be scored on originality, relevance to practice, abstract quality, methodology and overall impact.

Submission will only be accepted from those registered to attend.

Completed abstracts to be emailed to:
